The application has been amended as follows:

Claim 1, the identifier has been changed from "(Amended)" to - - (Currently Amended) - -.

Claims 24-80 have been cancelled as being directed to non-elected without traverse.

Claim 81, line 1, the identifier "(amended)" has been changed to - -(currently amended)- -.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

A review of applicants' arguments in amendment filed on 9/1/2006 and a review of the instant amended claims has convinced the examiner that the claims are allowable over the prior art of record. The prior art fails to teach or suggest a retroreflective laminate sheeting with viewing surface comprising a retroreflective layer having cube corner-based sheeting that includes a structured surface provided with a plurality of cube corner elements that are bounded by at least two intersecting sets of parallel grooves, and a plurality of discrete pigmented indicia disposed on the viewing surface side of the

retroreflective layer such that the pigmented indicia are not substantially aligned with the grooves; and that the retroreflective layer has a first cap-Y value which is more than the second cap-y value of the pigmented indicia. Also, no evidentiary support could be provided to support the position that the claimed invention would have been obvious to one having ordinary skill in the art.

The closest prior art of CODERRE (USP 6325515) teaches a retroreflective laminate having a cube corner-based sheeting with pigmented indicia thereon. However, CODERRE teaches away from the instant amended claims in that the indicia are aligned with at least one set of grooves and that the luminescence is enhanced by increasing the cap-Y value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
